This playground had been supported by Riverside Community Church, and on last month, they visited Cambodia and continued traveling to Kampong Spue children's home. They started installing the playground for kids there. This is a big blessing for Kampong Spue home. We all thank Riverside Community Church so much for giving children the playground.

English and Computer are popular subjects in Cambodia, so N.H.O has sent five computers to Kampong Speu children's home for orphans training. Brother, Seyha has been teaching them for many months, and He teaches both English and Computer, so please pray for them so that God bless the wisdom to them.
